Memorandum

RE: Montgomery County Stormwater Planning Technical Requirements Policy

The following technical requirements for Grading, Drainage and Erosion Control (GDEC) plans submitted to Montgomery County Building and Codes, Stormwater Management and Control Regulations Program are established as official Stormwater Program policy:

The outlet control structures for storm water storage facilities shall be sized to reduce post development discharges to pre-development levels for flood frequency events from 2 years through 100 years. A 100 year type II storm shall be used for the design and analysis of detention/retention facilities.

Authority: The Montgomery County Storm Water Management Resolution (#03-1-5), Section 12, Paragraph 2.

Rod C. Streeter  
Montgomery County  
Building Commissioner
