

NOTICE

MILITARY RECORDS CANNOT BE ACCESSED ON PUBLIC COMPUTERS

Effective immediately, military websites have been removed from the public computers in this office. This decision is based on recent recommendations from Ft. Campbell due to cybersecurity concerns. In the past, the Montgomery County Clerk's Office provided public computers as a convenience to our military customers to access various documents necessary for registration. We apologize this is no longer an option and for the inconvenience this may cause.

Mr. Peter C. Reyman, Executive Officer to the Commander, has agreed to use social and print media resources to inform Soldiers of the necessity to have the documents required, at the time of service, in order to process the application.
