Reasons for Change in Title/Grade

We currently have two opening for the Parks Janitorial Tech I role. The jobs have been open on the county website since October 2021 and we have had a total of five applicants with zero qualified to even interview. We are asking to reclass one of these positions now to be able to fill a void in our department needs with an Event Specialist instead of leaving the position vacant indefinitely.

Summary of Changes in Job Duties Responsibilities

The purpose of this job is to assist the Events Manager with daily functions of special events within the department. Incumbents develop event concepts and plan, organize, and coordinate event logistics. Events may be on-going or one-time. Responsibilities may include determining type of event; identifying and securing event entertainment and activities; determining personnel, space, equipment, and volunteer requirements; identifying funding sources; soliciting and securing event sponsors; soliciting and monitoring vendors; and implementing an event marketing plan.

Additional funds of \$ _____ are available in account(s) _____ to help cover the cost of this reclassification.

Jail Exterior Sealant

Architect/Designer: Montgomery County Engineering

General Contractor: TBD

Project Status: Bidding

Contract Date: TBD

Contract Completion Date: TBD

Budget: \$ 500,000

Current Contract Amount: TBD

Percentage Complete: 0% Construction

Comments:

- MCG Engineering has completed a bid packet and is currently bidding a project to address the complexity of accessing the various areas of the jail exterior in order to install a brick sealer and replace all joint sealants. Water infiltration has been an issue for a few years within certain areas of the jail, and brick spalling on the exterior is an indication that water is getting into the precast wall panels.
- Bids are due to be submitted on 2-8-22 and at that time we will determine if adequate funds are available to move forward or if additional funds might be needed due to construction price increases.

Upcoming/Ongoing Projects

ADA Transition Plan

Architect/Designer: Montgomery County Engineering
Project Status: Progress will continue on sign packages for various buildings. Additional progress will continue in areas where deficiencies remain.

Animal Control

Architect/Designer: J. Clark Architects
Project Status: Land acquisition continues to be a challenge and is necessary before further work can continue. Design funds are still needed to begin this phase of the project.

County Wide Growth Plan Study

Architect/Designer: Montgomery County Engineering
Project Status: 15-year growth plan have been completed except for the Sheriff's office, which is being completed via their Master Plan Study. This study has identified current and future staffing levels and has aimed to define where we will need to plan for more space and what departments might need to shift out of certain areas into another space or building. Growth into the State occupied offices within Veterans Plaza will be a key factor in accommodating this 15-year planned growth. Projects are being developed for the Courts Center, Court Center Annex, Bartee Center, and Veterans Plaza to attempt to stay ahead of these growth projections.

Courts Center Remodel

Architect/Designer: Rufus Johnson & Associates
Project Status: A programming study has been completed with all departments of the Courts Center to determine what else is needed within the building other than the two remaining courtrooms to be constructed. This study showed that we will be out of space within this building before the final renovation phase can be completed. Once the final 2 courtrooms are built, there will be no further room for growth within the Courts Center building. 3 departments have been identified that can function with an office outside of the Courts Center Building and a plan is being developed for a Court Center Annex facility. All of the departments being relocated will need to be moved out of the building prior to the renovation taking place due to the lack of space available for construction phasing.

Capital Projects – February 2022 – Construction Update Report

EMA/EOC & E911 Building

Architect/Designer:

J. Clark Architects

Project Status:

Cost estimates are being developed and preliminary design contracts are being drafted in order to possibly begin a design phase if Federal ARP dollars can be utilized for the EMA/EOC portion of the project. MCG Engineering will be managing both projects together that are to reside on the same property.

Library-HVAC Evaluation

Architect/Designer:

Smith Seckman Reid, Inc.

Project Status:

Existing heating and air units within the Library have experience mechanical and control issues since they were installed new in July of 2014. Energy savings were better than expected, but mechanical operations of the system have not been what they should be. A commissioning study has been completed and a report has been sent to Trane for what components need to be repaired or replaced. After repairs and updates are completed a test and balance on the air system will be completed to ensure things are running as they should. With this step in the evaluation, we feel that we can extend the life of this system without a full replacement, although a full replacement may come sooner than other similarly installed systems.

1986 Jail MP&E Evaluation

Architect/Designer:

Smith Seckman Reid, Inc.

Project Status:

SSR completed a full building evaluation of the 1986 (Old) Jail facility in December of 2020. Funding request to continue this process was not approved, so this project has been tabled until funding is available to continue. A Master Plan has been initiated for the entire Jail and PSC campus and grounds. This planning will be incorporated into budget requests this year. This 1986 project will be an extensive update in order to become compliant with current codes and Sheriff Department security requirements. SSR has completed a cost/benefit analysis for the proposed HVAC system and a cost estimate for the remaining Mechanical, Plumbing, & Electrical work that has been discussed. No Architectural modifications or structural work have been studied at this time.

Montgomery County Rail Service Authority

Architect/Designer:

Montgomery County Engineering & CSR Engineering

Project Status:

Multiple grant applications are currently being reviewed by Feds. New grant dollars have been approved and bridge repair projects will be developed and designed over the coming months for a construction project sometime in 2022.

Capital Projects – February 2022 – Construction Update Report
